Course Advice Sheet

Health & Social care

Level 2

In preparation for you starting your Level 3 Health and Social care course

Topics you can be researching

- **Communication** – Look at the different ways people communicate including people with disabilities, do you know anyone famous who has a disability? How does it affect their communication with other people do you think?
- **Dementia** – What are the different types of Dementia? What are the signs and symptoms of Dementia? How does Dementia affect people?

Activities to complete that might help

- Research 1 HSC job role, produce a fact sheet / poster on the job role, you may want to produce this piece of work based on the job role you wish to go into, you need to include:
 - Name of the role
 - Job description (what do they do?)
 - What qualifications do you require to have to achieve that job role?
 - Identify which role interest you the most and detail why
 - Use pictures and diagrams where you can

Things to revise

- Command verbs, learning their meaning

Projects you can undertake

- Start looking for a placement, make contact with local HSC providers and explain you will need to complete 30 hours over the 1 year, this will be completed in a block week, date tbc.
